Assignment 1: The Causes of Economic Growth

In this assignment, you will gather data from the *World Bank* website, and augment it with data from the *Clio Infra* website. Then, you will visualize these data using several graphs and tables, and test several hypotheses about the causes of economic growth. You will use this document to complete the code chunks which I have left unfinished to produce your own data analysis & visualization.

World Bank Data

Clio Infra Data

Cleaning and Reshaping the Data

Merging the Data

Summarizing and Analyzing the Data
